## Notes for Settings & Preferences

For descriptions of features and functions available when connected to ESCORT Live, visit [EscortRadar.com](http://EscortRadar.com) and download the PASSPORT Owner's Manual.

To view serial number and software revision press **SEN** and **VOL-** while powering on detector.

To restore PASSPORT to its original factory settings, press and hold **BRT** and **VOL+** while powering on detector. **Restored** message will display, acknowledging the reset.

## Software Updates

PASSPORT is easily updated using our exclusive detector software tools found on our web site. Firmware, or the operating software for the detector, can be updated using these tools.

In order to have access to these updates, please register your PASSPORT at [www.EscortRadar.com](http://www.EscortRadar.com). Once registered, you will receive email notifications that updates are now available for your firmware. To handle your software you need to connect your PASSPORT to a computer first. You can connect PASSPORT to a computer via USB A / Mini B cable (not included).

## PASSPORT Features

The PASSPORT introduces the following state-of-the-art performance and features:

- Long-range K and Ka-band radar performance, including instant-on POP mode.
- Exclusive AutoSensitivity intelligently filters out annoying false alarms, plus Highway, Auto, and Auto No X settings.
- Exclusive ExpertMeter tracks and displays up to 4 radar signals simultaneously.
- Exclusive SpecDisplay provides actual numeric frequency for any radar signal and alert bar.
- The PASSPORT now with built in Bluetooth® technology gives you access to ESCORT's award-winning app, ESCORT Live. Features when connected to ESCORT Live:
  - Our exclusive real-time ticket protection network, which warns you of upcoming alerts received by other users in the area.
  - Our DEFENDER Database, which warns you of verified speed traps, speed cameras, and red light cameras.
  - Our most popular GPS-powered features, including speed-limit data for over-speed alerts, live traffic data for your current location, and TrueLock™ to help eliminate false alerts. You can also Mark Locations for future reference.

Live Ready!

## Registration

Before downloading ESCORT Live, you must first register your PASSPORT device. Be sure to have your PASSPORT unit nearby, as you will need the serial number located on the bottom of the case.

- 1 Visit [www.EscortRadar.com](http://www.EscortRadar.com) and click Product Registration.
- 2 Click the link for Escort Live Ready devices.
- 3 Follow the onscreen instructions to register your device.

Be sure to write down the username and password you create, as you will need this information to access and download ESCORT Live. (You will also receive an e-mail with this information, once you have registered your device.)

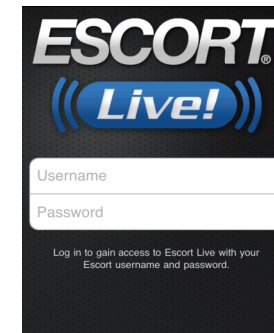

## Downloading ESCORT Live!

1 Enter the iTunes App Store or Google play store on your smartphone and search for ESCORT Live radar!

2 Follow the onscreen instructions to download.

3 When prompted, enter the username and password you created when registering your PASSPORT device.

3

## Pairing Your Smartphone

To pair your Smartphone with PASSPORT:

- 1 Ensure PASSPORT power is ON.
- 2 On your Smartphone go to Bluetooth Settings.
- 3 Ensure Bluetooth is ON.
- 4 Press **Scan** for devices and/or wait for the device list to populate, PASSPORT should appear under devices.
- 5 Tap PASSPORT to pair the device to your phone.
- 6 Bluetooth icon on the PASSPORT display screen will appear blue when paired to the phone.
- 7 Open the app, walk through the tutorial, and you're ready to hit the road!

For Bluetooth pairing tips and more information on using ESCORT Live! visit: [www.EscortRadar.com](http://www.EscortRadar.com)

4

## Installation

### Windshield Mount

PASSPORT's EasyMount windshield bracket is designed for unobtrusive and hassle-free mounting.

### Mounting Tips:

- Center of windshield between driver and passenger.
- Ensure clear view of road ahead and sky above.
- Avoid windshield wipers and heavily tinted areas.

### PASSPORT Mounting Location

**WARNING: ESCORT cannot anticipate the many ways PASSPORT can be mounted. It is important that you mount PASSPORT where it will not impair your view nor present a hazard in case of an accident.**

For optimum detection performance, we recommend the following:

- Using the Windshield Mount, mount your PASSPORT level, and high enough on your front windshield to provide a clear view of the road from the front and rear.

- Mount PASSPORT away from windshield wipers, other solid objects, and heavily tinted areas that might obstruct the radar antenna or laser lens.

5

1 Depress the adjustment button on the top of PASSPORT (by the word ESCORT) and slide the EasyMount Bracket into the slot until it is locked into the position which best fits the angle of your windshield (there are four settings available). For extremely horizontal or extremely sloped windshields, the EasyMount Bracket can be bent.

To ensure that the suction cups adhere to the windshield firmly, be sure to keep both your windshield and the suction cups clean.

2 To adjust the PASSPORT on your windshield, use the EasyMount adjustment button located on the top of the PASSPORT, and slide PASSPORT forward or backward to obtain a level position.

When installed and adjusted properly, the back top edge of the PASSPORT should rest solidly against your windshield.

**User's Tip:** You can leave the EasyMount bracket in place on your windshield, and easily remove PASSPORT by pressing the adjustment button and sliding PASSPORT off the mount. Again, be sure to position the bracket where it won't present a hazard in the event of an accident. Additional mounts are available at [EscortRadar.com](http://EscortRadar.com)

## Controls & Features

### Using PASSPORT

- 1 Plug small end of SmartCord into modular jack on PASSPORT and large end of SmartCord into your car's lighter/accessory socket.
- 2 PASSPORT should power on automatically. If not, press the device's power button.

*NOTE: You can easily access and customize all of your Settings and Preferences by pressing and holding the SEN and BRT buttons. See Settings & Preferences for details.*

### Using SmartCord

- Mute Button: Press to mute an alert. (When connected to ESCORT Live!) Press mute button three times to lock out a false alert; press twice while receiving a locked-out alert to unlock. Press and hold mute button on unit or cord to manually report to other users a verified X or K-band alert, or a police officer observing traffic.
- Alert Light: Blinks orange when receiving an alert.
- Power Light: Lights blue when receiving power.

**Modular Connector**  
Plugs into detector jack

**Lighter Adapter**  
Connects to lighter/accessory socket

**Earphone Jack**  
Connects to optional 3.5 mm stereo earphone.

**Modular Jack**  
Connects to SmartCord for powering your device

**Mini USB Jack**  
Connects to your computer via USB A / Mini B cable for downloading software updates
