- 1 Year Limited Warranty

SAFE AND SOUND

The feature-rich Motorola MWR839 SAME weather alert radio provides early warnings to ensure you're prepared for whenever disaster strikes. With AM & FM weather radio as well as the ability to connect to external media devices, you'll always be in touch!

BE PREPARED BUT MINIMIZE FALSE ALARMS

Specific Area Message Encoding (SAME) technology allows you to filter out emergency alerts outside of your county. When the SAME alert function is on, the radio will automatically play emergency weather/public alerts for your local area. There are 76 types of alerts, including weather related alerts, civil emergencies, hazards and child abduction alerts. You can disable alerts* that you prefer not to receive.

LISTEN UP

Tune in to AM/FM radio or NOAA weather channels. With 5 preset stations for AM and 5 preset stations for FM, you'll always find your favorite stations really quickly. If that's not enough, use the radio's AUX IN input to connect to your favorite music device and use the headphone connector if you don't want to disturb anyone. The radio has a built-in RBDS receiver which provides you with a range of informational features including clock time, date, names of radio programs and other radio text messages (eg. song titles).

MORE POWER TO YOU

When disaster strikes and electricity is out, stay informed using an alternate power source. Just pop in 4 AA batteries into your radio as a convenient and essential backup power source.

HELP KEEP YOUR FAMILY SAFE!

Not to worry, should your radio be in either standby or AM/FM mode, the Alert Override feature automatically switches to emergency alert broadcasts - keeping you informed of any impending danger.

WHAT HAPPENED?

No need to wonder what happened while you were away. Your weather alert radio stores up to 20 emergency alerts for you to review.

GOOD MORNING!

How would you like to be awakened? Your weather alert radio gives you the choice to be awakened either by your favorite AM/FM radio station or simply by a buzzer alarm. There are two individual alarm settings for your convenience and a snooze button when you are not quite ready to start your day.

*Some alerts are mandated by CEA Public Alert Standards and cannot be disabled
** Per CEA Public Alert Standard
