MOTOROLA TALKABOUT® T6530 TWO-WAY RADIO SERIES

With a range of up to 10 miles*, the T6530 is great for family vacations when you are caravanning, skiing with a group or running around a theme park. And with no roaming charges, fear of dropped calls or expensive overages to worry about, the T6530 ensures that everyone has a happy getaway, without getting away from each other.

NOAA WEATHER CHANNEL

On the slopes? At a theme park? Know exactly what conditions to expect with continuous weather broadcasting from a NOAA channel (National Oceanic and Atmospheric Administration). Additionally, your T6530 can inform you of dangerous conditions with weather alerts so you can keep your family safe.

FULL-FEATURED PRIVACY

The T6530 has a full 22-channel capacity each with 99 privacy codes, creating 2,178 combinations to choose from. Priority scan quickly finds the most private channel in crowded environments and with the QT™ (Quiet Talk) interruption filter enabled, radios from other manufacturers cannot be heard on your channel.

SILENT SIGNALS

The VibraCall® silent vibrating ringer is perfect when you are out on the boat or in a noisy situation when the sound of the ringer would be drowned out. Just set your T6530 to VibraCall® to ensure that you never miss a call.

COMPANDING

The T6530 has a Motorola exclusive feature —“companding”— a sophisticated digital technology that filters out static between words. This delivers noticeably clearer transmission.

PRICING

Manufacturer's Suggested Retail Price is \$59.99 (NiMH) per pair.

***How far can I expect my radios to communicate?** The communication range quoted is calculated under optimum conditions, with an unobstructed line of sight. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to, terrain, weather conditions, electromagnetic interference, and obstructions. Please visit www.giantintl.com/range for further information.
