

PRSM-HD6WP

Description

IMPACT™'s HD6WP sets a new standard in high end Public Safety Speaker Mics. Built to exceed the standards of much higher priced models, the HD6WP is the ultimate Public Safety/Military solution. IP67 waterproof rated and built to Mil-Std 810, the HD6WP features our "Push Anywhere" Military style PTT, 3.5mm accessory jack, hi/low push volume button, super high-impact head casing, heavy duty anchored Kevlar™ coil cable and an oversized 360 degree clothing clip.

When combined with the optional wireless PTT and 6-pin Hirose accessory port, the HD6WP offers the user the most versatile communication solution possible. For example: Motorcycle or Mountain Bike police officers are able to operate hands-free with the WPTT strapped to the handlebars and the headset plugged in to the speaker mic, then easily remove them for normal speaker mic use.
